REWIND[®]

How to collect end-of-life Rewind[®] carpet

RECYCLING

Rewind[®] is event carpet designed for recycling. It contains no latex and is made solely of PP ensuring the carpet can be easily and fully recycled after use. The end-of-life carpets must be seen as raw material and not as waste.

GUIDELINES

In order to guarantee the quality of the recyclate, these guidelines must be respected. They will also ensure that no damage is caused to the recycling installation.

CERTIFICATE

After recycling, you will receive a certificate confirming the volume that was sustainably recycled.

Collecting

ONLY REWIND® CARPET

Rewind® carpet can be easily identified and separated from other carpets thanks to the logo printed on the back of the carpet.

REWIND® TAPE

Rewind® tape can be recycled along with the carpet as it is also made of 100% PP. All other tape must be removed.

CLEAN

Any and all loose debris (waste) must be removed from the carpet prior to it being folded or rolled up. No metals of any kind are allowed to remain in the used carpet.

No leaflets, cups, bottle caps, cans, napkins, screws, booth stickers, ...

DRY

Wet carpet cannot be recycled, and must not be returned.

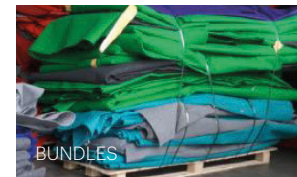

Shipping

ONLY CARDBOARD CORES

If a core is used for rolls, only cardboard cores are allowed.

ALLOWED WAYS OF LOADING

The end-of-life carpets should be stacked and secured on pallets so that they can be easily handled by the forklift. Carpet charged in bulk may be subject to a handling fee per tonne.

Please note that the end-of-life carpets can be refused or costs can be charged if these requirements are not respected.
